

include/Exception.hpp

```
graph TD; A[include/Exception.hpp] --> B[exception]; A --> C[string];
```

A diagram illustrating a C++ header file's dependencies. At the top, a gray rectangular box with a black border contains the text 'include/Exception.hpp'. From the bottom center of this box, two dark blue arrows point downwards and outwards to two separate white rectangular boxes with gray borders. The left box contains the text 'exception' and the right box contains the text 'string'. This visualizes that the 'include/Exception.hpp' file includes both 'exception' and 'string' headers.

exception

string
